**856-0xx**  
"D" Series Metal Cover

### Description

Proven to provide fast response and highly accurate temperature control, Powerstar and "D" Series Pneumatic Room Thermostats are designed to control heating and/or cooling by operating a variety of pneumatic devices such as valves or damper actuators.

Thermostats come with chassis and back plate, covers are not included.

These covers are designed for new thermostat installation or for replacement of existing thermostat covers.

This document specifies the various thermostat cover models available with concealed or exposed setpoint adjustment, room temperature indication and setpoint indication.

POWERS™ pneumatic room thermostat covers are available for the following applications:

- Single Temperature
- Day/Night
- Day/Night Vent
- Heating/Cooling
- Free Energy Band
- Free Energy Band with Hesitation
