Visual Pressure Monitor

Features

- Simple single-room pressure indication for all pressurized spaces
- Sleek and attractive single wall plate
- Multiple installation options
- Simple to install in minutes
- Visual alarm via red/green light ring
- Configurable audible alarm
- Offset light pipe that can be seen at an angle or down a hallway
- Digital display can be always-on or momentary
- Is easy, using just 3 buttons
- Analog configuration output provides pressure reading to BMS system
- Works with Setra FLEX to serve rooms with multiple doors
- Available in White or Black

Accurate measuring & display

Setra Lite provides a simple, cost-effective, and accurate way to measure and display room differential pressure for spaces that currently require manual verification. For local staff managing an area, Setra Lite has a light ring that is green or red and an optional audible alarm providing clear indication of room conditions. For facility using Setra Lite means the frequency of preventative maintenance walk-by inspections can be reduced because Setra Lite is monitoring the space.

Setra Lite features

Setra Lite has many features found only in larger, more complex room pressure monitors. Including a bright light ring that can be seen at an angle or down a hallway, a digital display of the pressure value that is always-on or momentary, an alarm delay for door entry, and POS or NEG room mode. The Setra Lite sensor has Setra's accuracy and reliability you know you can trust.

Simple installation

Setra Lite is about the size of a standard light switch, and just as a simple to install. It fits in a single-gang US electrical box, international 86-box or international round back-box, and is powered by 24VAC or 24VDC. The reference side pressure pickup is integral with the Lite faceplate. An analog output provides the building management system with the pressure signal for any additional trending or alarming needed.

The Setra Lite also integrates seamlessly with the Setra FLEX environmental monitor. Mount Setra Lite at additional doors that enter the space, and use an on-screen badge to display its value.

Applications

- Sterile processing
- Sterile storage
- USP 800 compliance
- Endoscopy
- Bronchoscopy
- Laundry
- Protective patient rooms
- Isolation rooms (All)
- Emergency ICU tents
- Recently Reconfigured spaces
- Critical & Non-critical ASHRAE-170 spaces
- Replacement of ball/tube through the wall pressure indicators

Display

Light ring	Green, red, yellow, or off
Numeric value	4 digits

Features

Re-zero	Single press-and-hold to re-zero sensor
Alarm thresholds	Set numeric threshold in "WC or Pa
Door delay	Set door alarm delay for 0-999 seconds
POS or NEG indicator	Set display to show POS, NEG, or off
Display on/off	Set display to always-on, or momentary press to show pressure value
Significant digits	1,2, or 3 after decimal point, POS or NEG
Light ring	Set LED ring to: <ol style="list-style-type: none"> 1). steady green, steady red if alarm 2). Green OFF, and steady red if alarm 3). always off
